About Me

Final-year Computer Science and Engineering student with a strong foundation in Data Structures and Algorithms, Machine Learning, and Web Development. Passionate about leveraging AI and Generative AI to develop innovative, impactful solutions for real-world problems. Experienced in full-stack development and in building AI-powered applications. Eager to contribute to impactful projects in Software Development, Engineering, and AI/ML domains, with a strong inclination toward applying innovative technologies and continuously expanding my technical expertise.

Education

Indian Institute of Information Technology Pune

November 2022 – June 2026

B.Tech in Computer Science and Engineering

- CGPA: 7.55/10
- Solved 250+ DSA problems across LeetCode and GeeksForGeeks

Skills

Programming Languages: C++, C, Java, Python, SQL

Machine and Deep Learning: TensorFlow, PyTorch, scikit-learn, Keras, NumPy, Transformers, Transfer Learning

Generative AI (GenAI): LLMs (Large Language Models)(basics), Vector Databases, LangChain framework

Web Development: HTML, CSS, Bootstrap, React.js, Streamlit, Flask, FastAPI (basics)

Non-Technical: leadership, teamwork, Team management

Tools: Git, GitHub, VS Code, Jupyter Notebook, Docker (basics)

Relevant Coursework

- Data Structures and Algorithms
- Object-Oriented Programming
- Database Management Systems
- Operating Systems

Projects

Full Stack Sales Prediction Web App

GitHub Repository

- Developed a web application using **React** (frontend), **Flask** (backend), and **Prophet** (ML model) to forecast weekly sales.
- Designed an interactive dashboard for real-time sales insights and automated **PDF/Excel report generation**, showcasing skills in data-driven application development.

AI-Powered Resume Analyzer

GitHub Repository

- an AI-based resume evaluation system leveraging **Local LLMs**, **NLP**, and **Flask**, enabling recruiters to analyze resumes efficiently.
- Designed an interactive web dashboard for **real-time skill extraction**, **candidate ranking**, and gap analysis, improving the hiring workflow. Tech: **Python**, **Flask**, LangChain, **Hugging Face Transformers**, Streamlit

Leadership Extracurriculars

Co-Head, Dance Club (Vanity Crew), IIIT Pune

September 2024 – Present

Event Management Volunteer, E-Summit 2023

April 2023
